

Introduction

Amplus Auto Body design and manufacture a unique range of aluminium truck bodies, toolboxes, trays and cargo pantechs. Amplus clients typically have a need for innovative designs, excellent quality, and exceptional service. Our ability to meet the needs for a variety of industries (utility companies, government and fleet, building and construction, plumbing & electrical, transport and service) is the impetus behind our growing list of satisfied customers.

Amplus Auto Body are proud to be associated with the Amco Veba Group, and to be the Australian representative for this range of high quality truck mounted cranes. Amco Veba offer a range of 1-90tm cranes for a wide range of applications, including marine applications.

1-2 TONNE

Our range of 1-2 tonne rated aluminium bodies are designed and built to demanding standards. All floors are structural grade aluminium, cabinet panels are 2.5 or 3.0mm aluminium sheet (depending upon application), all joints are sealed with urethane to prevent dust and water ingress, and doors are sealed with pinchweld rubber. A range of high quality locks and hinges are available to select from. Ask us to assist you with our CAD drawing service to help plan your next purchase.

4-6 TONNE

Our range of 4-6 tonne rated aluminium bodies are designed and built to demanding standards. All floors are structural grade aluminium, or structural steel sub floors allow for easy fitting of crane or tailgate, when required. A wide range of options are available, ask us to assist you with our CAD drawing service to plan your next purchase.

EMERGENCY SERVICES

Amplus Auto Body have available four (4) body designs specifically suited for the purpose of New South Wales State Emergency Service rescue bodies, including Type 1 (Road Crash Rescue/Storm and Flood), Type 2 (Storm and Flood), Type 3 (Quick Response), and Type 2 Storm Trailer (Storm and Flood Trailer). All of these units have been designed around a standard floor plan layout that suits the application intended, and have been designed to meet the regulatory dimensional and weight requirements of the RTA, and the NSW State Emergency Service.

AMCO VEBA CRANES

Amplus Auto Body are proud to be associated with the Amco Veba Group, and to be the Australian representative for this range of high quality truck mounted cranes. Amco Veba offer a range of 1-90tm cranes for a wide range of applications, including marine applications.

Accessories

A wide range of accessories are available on request including steps, shelving, drawers with 45, 100, or 200kg slide systems, water tanks, work lamps, reverse cameras, central locking, beacons, LED strobe lamps, ratchet straps, bottle holders, vices, racks and parts bins. Ask our dedicated staff to assist you in your selection of the best accessory for your application.
